## **JBC will be on exhibition for the first time at the 2nd Robodex exhibition to be held on January 17, 2018 ~Information on "Apple Polisher Robot"~**

JBC Co., Ltd. announces that it will exhibit at the "2nd ROBODEX exhibition" to be held from January 17, 2018 to January 19, 2018 at Tokyo Big Sight.

It will be the first exhibition based on the results of the Tokyo Agricultural University · Mizuuchi laboratory. "Taiko holding robot" utilizing image recognition technology and speech recognition technology of development department will be exhibited.

Along with the widespread development of AI and robot technology in recent years, it will not be a distant future that the era will come when the robot communicates with various people and it will become common for people to heal. The function of understanding people using image recognition technology and speech recognition technology in such a communication robot is indispensable.

JBC has developed a robot that provides "laugh" using such technology. Feel free to drop in at the booth.

### **Company Profile – About Us – JBC CO., LTD.**

JBC Co., Ltd. has been aiming to deliver the best products to customers, and has been selling automotive electrical components for 28 years since its inception in January 1990.

In recent years, opportunities to receive requests for system development including software and circuit designs have increased since the sale of electrical components alone. Therefore, based on the GPS technology, motor control technology, and image processing technology accumulated within our company, we will establish a development department from 2016 and will continue to improve our technical capabilities through the development of communication robots with the cooperation of universities.
